

Coffee Maker Instructions

1. Plug in unit and the heater will automatically start.
2. Wait until BREW light turns on. (about 15 min)
3. Insert coffee filter into brown filter funnel.
4. Add ½ cup (level) coffee to funnel.
5. Insert funnel into unit.
6. Pour one decanter full of water into the screend area on top of the brewer.
7. Place decanter onto the lower warmer.

Unplug unit when not in use!

Hot Chocolate Instructions

To make entire dispenser of cocoa:

1. Use large red insulated bins for mixing / dispensing hot chocolate. On the home side, these bins may be located either in the bunker or in the storage closet outside Stand A.
2. Using pitchers, fill red bin half full with water from hot water machine. Add entire can of Swiss Miss cocoa and stir.
3. Sample / taste test before serving.

To make individual servings (for lightly attended events):

1. Using 12oz cups, mix hot water and cocoa according to instructions on Swiss Miss can.
2. Another option to make several servings at once: Fill pitcher with water from hot water machine, add 8 – 10 scoops of Swiss Miss in pitcher, stir, taste. Once desired mix is achieved, pour into coffee pot and place on warmer / serve as needed.
