

Popcorn Maker Instructions

1. Plug in Plug in popcorn machine.
2. Turn on warmer lamp.
3. Add 1 cup popcorn to a 12 oz cup.
4. Add 1/3 cup popcorn oil to the cup.
5. Using a white plastic teaspoon, add 1/2 teaspoon of popcorn salt to the cup.
6. Turn on popcorn kettle for 1 or 2 minutes and then pour contents of the cup into kettle.
7. Lower the lid on the kettle and close the outer doors.
8. **DO NOT WALK AWAY OR IT MAY BURN!**
9. When the popping starts slowing down to just a few pops, empty the kettle by rotating handle to the right.
10. If you think more popcorn will be needed, then prepare another 12 oz cup for the next batch.

Unplug unit when not in use!
